-2-

*(b)*  
*(inv.)*

1        27. (Newly Added) In a health monitoring system including a plurality  
2        of differing measuring devices, each measuring a health parameter of a patient and  
3        displaying a health parameter value on a display, a method of recording the health  
4        parameter value from each measuring device comprising the steps of:

- 5                (a) identifying each respective measuring device;  
6                (b) scanning a display of the measuring device identified in step  
7                (a) to extract a health parameter value displayed on the display; and  
8                (c) inputting the health parameter value extracted in step (b) to a  
9                data collection terminal.

1        28. (Newly Added) The monitoring system of claim 27 wherein step (a)  
2        includes forming a marker on the display and identifying the respective measuring  
3        device by scanning the marker.

Respectfully Submitted,

  
Allan Ratner, Reg. No. 19,717  
Jack J. Jankovitz, Reg. No. 42,690
